

## APPARATUS AND METHOD FOR DISPLAYING TRADING TRENDS

## ABSTRACT OF THE DISCLOSURE

The present invention provides an apparatus and method of determining and displaying trading trends for one or more currency pairs wherein an opening value and a closing value for the one or more currency pairs for two or more time intervals is obtained.

- 5      An opening value trend using a market trend indicator and the opening values for the investment is calculated, and a closing value trend using the market trend indicator and the closing values for the one or more currency pairs is calculated. A visual indicator comparing the opening value trend to the closing value trend for the one or more currency pairs is then displayed. This method may be incorporated into a computer program embodied in a
- 10     computer readable medium using code segments to accomplish the method described above.
